Live Talks

DIVERSE WISSENSCHAFT

with:

NICOLAS BAIRD

(he/him)

Museum für Naturkunde Berlin

Integrative Taxonomy of Antelopes

Science-in-progress

"find my family"

tree of life

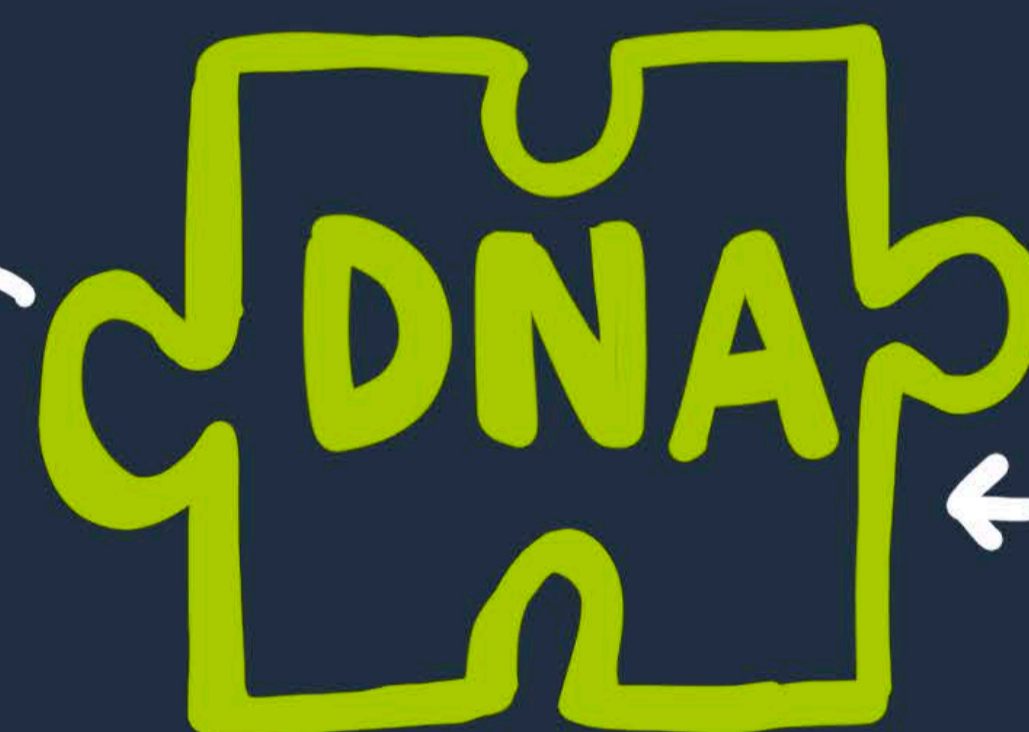

"how many species are we"

DNA ≠
how do they talk to each other

Scan to get information

bushbucks

PROXY

= similar

my day to day:

computer-work

→ DNA WORK ←
Spending time with species is so fascinating

and: finding the hidden

NEW data is awesome!!

OPPORTUNITY: → depth of learning

INSTITUTE OF QUEER ECOLOGY

→ how we see & interact with the natural world

a PROJECT of hope

Working in the MUSEUM is like being on a goose chase

stay with me

On my goal-list:

visiting bushbucks in Africa

change →
TURN the narrative

Model = Metaphor
→ turning the unknown to known

fun Natur MUSEUM FÜR NATURKUNDE BERLIN

LGBTQ+ STEM Berlin

ART i SCIENCE
